

1 DAY ACCORDION REPAIR COURSE

Monday 21 or 28 October (date to be confirmed)

Location: Teddington TW11 (near Kingston & Twickenham)

To those interested in learning how all the accordion parts work. Also save money by being able to fix small common problems on your accordion

YOU ARE WELCOME TO BRING YOUR ACCORDION FOR EVALUATION IF IT HAS ISSUES – SOME PROBLEMS MAY BE FIXED DURING THE COURSE

This course is aimed at those players who have little knowledge of their instruments but would like to know how all the component parts work. Sometimes our tutor Paul Flannery has been able to fix problems during the course saving the cost of sending it for repair.

Morning session

9.30am – 12.45pm *Refreshments provided during the morning*

12.45pm-2pm lunch break (Pub, shops and cafes nearby)

Afternoon session

2pm – 5.30pm *Refreshments provided during the afternoon*

During the day the working parts of the accordion will be explained and how the treble and bass switches work and the common problems you may encounter. Also reed block configurations, voices, how to undertake minor repairs, including valve replacement, sticky keys and switches, changing bellows gasket and general fault finding. Any instruments brought along needing attention can be used as an example for pinpointing a problem. If it cannot be fixed during the course a diagnosis and assessment can be given. During the day some practical work will be possible. Materials are provided. There will be an overview on how accordions are tuned. Participants should bring a note pad for their own reference notes. Questions on any aspects can be fielded throughout the day.

Cost for the 1 day course is £150

If anyone is travelling a long distance and requires overnight accommodation locally there is a Travelodge in Teddington, B&B / AirBnB etc.
